

ADAC Plus Membership Terms and Conditions

Valid from 1 January 2014

For the benefit of ADAC Plus members, ADAC has concluded group insurance contracts with ADAC-Schutzbrieft Versicherungs-AG in Munich (assistance booklet and credit benefits, accident emergency benefits and travel liability insurance) and ADAC-Rechtsschutz Versicherungs-AG in Munich (travel contract legal expenses insurance). These are separate, legally independent insurance agreements. They are based on the relevant Group Insurance Terms and Conditions of the insurers.

The group insurance covers Europe-wide vehicle-related benefits such as assistance following breakdown, accident and vehicle theft as well as world-wide person-related benefits for the persons covered in the event of illness, injury and death.

The accident emergency benefit includes a lump sum immediate benefit of €3,000.00 for persons having suffered serious injuries in an accident with a complicated treatment process. Coverage applies around the clock, world-wide.

Travel liability insurance benefits cover the insured during travel outside Germany for up to 45 days for mandatory private third party liability resulting from everyday risks (e.g. cycling) except for the operation of motor vehicles, aircraft or watercraft. The insurance covers the determination of liability, indemnification of parties with valid claims and defence of invalid claims (incl. costs of litigation, if necessary). The sum insured for personal injury and loss is €500,000 per incident. The overall cover amount for all incidents is €1 million per insurance year. The deductible (excess) for material loss is €150.00 per incident.

The travel contract legal expenses coverage includes legal representation in matters arising from travel services, passenger transport and accommodation contracts which the persons covered may have concluded while travelling or in order to make travel arrangements. Travelling means that you are more than 50km (distance over land) away from your place of residence. The covered amount for legal expenses claims within Europe is €300,000; legal expenses claims arising outside Europe within the first three months of a sojourn are covered up to the maximum amount of €40,000.

With a view to assistance booklet benefits, cover applies to claims arising in the European area of coverage and, where the benefits defined in §§24, 25, 27-34 are provided world-wide, also incidents anywhere in the world. The European area of coverage extends to geographic Europe including Germany, the non-European countries bordering the Mediterranean Sea, the Canary Islands, the Azores and Madeira.

Benefits defined in §20 and §26 will be provided within the borders of the European area of coverage. This will also apply to cases where the incident has occurred outside the European area of coverage. If your place of residence is not in Germany, please note §2 of the 2014 Group Insurance Terms and Conditions of ADAC-Schutzbrieft Versicherungs-AG for the ADAC Plus plan.

The persons covered are the primary ADAC Plus member and any other persons named to us as members of the covered persons group/party provided that they are ADAC members and that they have not expressly declined cover. The covered persons group may include the primary member's spouse or partner as well as any of their children up to their 23rd birthday.

The protected vehicles include motor vehicles, whether subject to licensing or not, which one of the persons covered operates as the solely responsible driver at the time of the incident. In addition, cover extends to any motor vehicles registered in the name of one of the persons covered provided that at the time of the incident one of the persons covered was a passenger in that vehicle. This also applies to cases where the trip is about to be undertaken.

Where none of the persons covered is riding in the vehicle at the time of the incident, the motor vehicle registered in the name of one of the persons covered shall be eligible to receive breakdown and accident assistance, assistance with lost or defective/broken car keys, towing, off-road recovery, vehicle recovery, spare parts delivery, vehicle customs clearance and scrapping.

The commencement and the end of insurance cover are based on the terms and conditions of the ADAC Plus plan.

The benefits relating to illness, injury, death and other emergencies (§§24 to 34) apply while travelling. Travelling means that you are more than 50km (distance over land) away from your place of residence. In the European area of coverage, cover extends to travel which at the time of the incident did not exceed 92 days in duration since departure from the place of residence. Outside the European area of coverage, cover extends to travel which at the time of the incident did not exceed 45 days in duration since departure from the place of residence.

Based on the design and the facilities for the transport of passengers, the vehicle must not have more than 9 seats (including the driver's seat) and must not exceed a total width of 2.55m, length of 10m, height of 3.00m and maximum gross weight of 3,500kg. All measurements indicated also refer to the vehicle trailer including load. The trailer must not have more than one axle. Axles spaced less than 1.00m from one another are considered one axle. Motorhomes shall be covered regardless of vehicle measurements. The following benefits shall not be available, if the vehicle is over 3.20m high (load included) and the vehicle gross weight exceeds 7,500kg: Off-road recovery (§16), vehicle recovery (§20), pick-up service (§21) and if the car is a total loss, transport from the place of the incident to the storage site and from the storage site to the scrapyard or customs office (§23 No. 2).

In the case of an incident, our international ADAC assistance centres or our 24-hour assistance centre in Munich will assist you. You will find the telephone numbers of the ADAC assistance centres on the cover of the ADAC Plus service booklet. For each benefit, call the emergency number specified, so we will be able to help you. We will refund documented telephone expenses incurred to request assistance. Please keep your documents ready when calling. Send us the original bills and receipts together with a claims report. If there is another policy covering the same loss or damage, this cover shall take precedence. If you report the claim to us, we will advance the funds according to our terms and conditions of insurance.

ADAC credit is available to cover the contingencies listed below up to the amounts specified:

- a) **ADAC emergency credit:** Credit for repair, towing and breakdown service costs, medical treatment and hospital expenses, lawyer's fees, expert reports, on-the-spot fines for motoring offences, max. €1,228.00.

- e) **ADAC lawyer's fees and medical expenses credit:** Credit for the payment of lawyer's, doctor's or hospital fees in the case of an accident or sudden illness to be combined with ADAC emergency credit where required, max. €1,300.00

ADAC credit is supplied to the person covered in the form of payment guarantees for the local invoice-issuing party. The specified amount will be made available in Euros or the current equivalent in local currency. We reserve the right to require the person covered to provide an "IOU" note in the amount of the credit provided. Eligibility for such credit depends on the full and timely refund of any prior credit provided by us. We will reclaim the amounts paid in local currency in Euros at the exchange rate effective on the day of invoicing. The person covered must repay any credit obtained within 14 days following receipt of our invoice. Interest on overdue invoices shall accrue from the date when payment becomes due at a rate of the German Federal Bank's base rate plus 2% max. In addition, your ADAC Plus membership may be converted to an ADAC membership without ADAC Plus benefits with immediate effect when a payment becomes overdue. Setting off credit repayments against refundable assistance booklet benefits shall only be permitted if we accept the reason and amount in question.

2. Scope and purpose of cash services and emergency assistance (not in Germany)

The assistance benefits for persons covered while travelling to world-wide destinations (outside Germany) and facing financial contingencies which they cannot take care of on their own (e.g. by using ec/girocard debit cards, credit cards or bank transfers). Assistance is also available if ADAC credit benefits are insufficient and/or the person covered needs the money for purposes other than those defined for ADAC credit benefits.

We will contact the house bank of the person covered, another financial institution or a third party named by the person covered to arrange the fast disbursement of cash at the latter's destination. In this case, we will cover the charges for the bank transfer or payment up to €103.00 (cash service).

If providing the bank information is not sufficient, we may issue further credit or arrange a cash disbursement (emergency assistance). To be eligible, you must provide proof for your financial need, name a warrantor and/or arrange for the amount needed to be deposited in Germany. ADAC credit is supplied in the form of payment guarantees for the local invoice-issuing party. Eligibility for such credit depends on the full and timely refund of any prior credit provided by us.

We will reclaim the amounts paid in local currency in Euros at the exchange rate effective on the day of invoicing. The person covered must repay any credit obtained within 14 days following receipt of our invoice. Interest on overdue invoices shall accrue from the date when payment becomes due at a rate of the German Federal Bank's base rate plus 2% max. In addition, your ADAC Plus membership may be converted to an ADAC membership without ADAC Plus benefits with immediate effect when a payment becomes overdue. Setting off credit repayments against refundable assistance booklet benefits shall only be permitted if we accept the reason and amount in question.

3. Liability when using credit and cash assistance benefits

We shall not be held responsible for the behaviour and the services provided by the invoice-issuing party. Such party shall be deemed to be acting solely on behalf of the person covered. We do not appoint or recommend firms. In the event that the service is not performed at all, delayed or performed poorly or if it proves too expensive, you must address any claims directly to the invoice-issuing party. To prevent that claims become statute-barred, they must be raised immediately after you notice the fault or defect, if possible personally or by registered mail. If necessary, contact ADAC Legal Services or an ADAC assistance centre for advice and support.
