# THE HISTORY OF THE BRAAI

A man and a woman are braaiing outdoors. The man, wearing a red and black plaid shirt, a brown beanie, and light-colored pants, is using a blue-handled metal spatula to flip food on a black braai pan. The woman, wearing a brown quilted vest over a dark sweater, a bright yellow scarf, and blue jeans, is holding a small white container and looking down at the food. They are standing next to a blue gas braai on a tripod stand. A blue gas cylinder is connected to the braai. In the background, there is a large tree and a green field.

South Africa has a long braai history. The origins of the word braai is Afrikaans for barbecue or grill and originates from early Dutch settlers who sailed to Cape Town a few centuries ago.

A South African braai is more than just your standard barbecue. Encompassing flavoursome food and great company, a braai is an occasion; a celebration of outdoor life! We invite you to come and 'Live The Braai Life!' with us at Cadac.

# CADAC'S BIG FIVE

South Africa is known for its Big Five animals. With our South African roots and almost 70 years of 'braai experience', we proudly introduce our very own Big Five!

## GREENGRILL

### GREENGRILL

New for 2018 - the Green Grill coating is the latest innovation from Cadac.

Made from an organic ceramic, the Green Grill coating is environmentally friendly and non-toxic.

Improved durability, scratch resistance and coating hardness separate the Green Grill from traditional non-stick coatings without compromising on the ease of cleaning.

Green Grill withstands higher temperatures, distributes and retains heat better, resulting in a lower gas consumption.

## EASY ASSEMBLY

### EASY ASSEMBLY

Thanks to their cleverly engineered design, Cadac portable barbecues can be built in a matter of minutes, with no need for tools.

Packing away neatly into durable storage bags, they are easy to stow when not in use.

## EASY CLEAN

### EASY CLEAN

Cadac portable barbecues have been designed with you in mind.

The Easy Clean System ensures you spend less time cleaning and more time cooking! Most barbecues in the range benefit from a removable fat pan, so you can simply lift it off and pour away any grease that has collected in the trough around the edges of the fat pan.

The non-stick modular cooking tops can be cleaned with ease; simply wipe down with warm soapy water or pop straight into the dishwasher!

**THERMOGRILL**

## THERMOGRILL

Cadac portable barbecues exclusively house the leading grill technology; the Thermogrill.

Cadac BBQ grill tops (circular) now have an innovative integrated heat deflector. This negates the need for a flame tamer and delivers even heat distribution across the grill surface. This will improve the quality of your cooking and reduce gas consumption by approximately 34%.

**MODULAR**

## MODULAR SYSTEM

One barbecue, endless possibilities!

The Cadac range of easily interchangeable modular surfaces includes: pizza stones, roast pans, paella pans, skottels and more.

From grilling and baking to slow cooking and broiling, the Cadac Modular System breaks the traditional boundaries of conventional outdoor cooking.

Be Brave, Bring Out The Gourmet in You.

## GUARANTEES

Cadac leisure barbecues come with a 2 year manufacturers' limited warranty, and Cadac accessories comes with a 1 year limited warranty.

# PORTABLE BARBECUES
